Social Skills Groups at Good Shepherd Pediatrics

Reasons to Participate:
• Increase social interaction among peers
• Improve flexible thinking skills
• Learn to participate in group activities
• Expand conversation skills

Group Dynamics:
• Directed by 1-2 therapists
• Groups serve between 3 and 6 children
• Typically 8-10 weeks in duration
• Sessions run for 45 minutes
• Brief parent discussion will follow each session
• Offered approximately 4x per year
• Typically covered by insurance under speech therapy; if not, other options may be available

Interested in Joining a Social Skills Group?
Here is how…
• If your child is a current Good Shepherd patient, please let your therapist know of your interest.
• If your child is NOT a current patient, please call our main office at (610) 776-3109 to request a speech therapy evaluation for "Social Skills (Please note: We will need a physician’s prescription stating the need to “evaluate and treat pragmatic language impairment”).
• If you have further questions, please call the Outpatient Pediatrics Speech Therapy Department at (610) 776-8327.
